<b>Who finds the RCP?</b>	<p>The FSR program sends RCPs to the client's home for the parent to interview. The family may have as many RCPs as they wish. The family chooses which workers they will use. When the family needs a new RCP, they call the office for additional workers. The FSR department may also hire someone at the parent's request.</p>	<p>The parent/legal guardian finds and recruits the workers. BRC will hire as many RCPs as the family wishes. When the family has a new worker to hire, they call the SSR office for a new employee packet to be mailed.</p> <p>The SSR program does not recruit workers, nor do they have a list/registry of workers from which the families can choose a new worker.</p>
<b>Who hires the RCP?</b>	<p>The FSR department recruits, hires and trains all FSR General Workers. FSR pays all costs including trainings, salary, employer taxes, mileage reimbursement, fingerprinting costs, insurance, raises, and bonuses.</p>	<p>After the parent refers the RCP to SSR, they become an employee of Bay Respite Care. The SSR department hires them, issues all paychecks, and pays employer taxes and insurance. We also pay for background checks and offer CPR &amp; FA for free to employees.</p>
<b>The Respite Workers' pay rate?</b>	<p><b>\$9.35 - \$14.75/hr plus mileage reimbursement for driving to and from the clients' homes.</b></p>	<p><b>NBRC: \$10.30/hr, no mileage reimbursement</b>  <b>RCEB: \$8.50/hr, no mileage reimbursement</b></p>
<b>Training and Supervision</b>	<p>FSR workers complete a 2 day general training and are CPR/First Aid certified. Each RCP has been: interviewed, references checked, fingerprinted for a criminal background check, and passed a TB test. Parents contact the FSR department to assist with worker problems. The FSR department handles all disciplinary and discharge problems.</p>	<p>The SSR department hires the RCP and provides mandatory CPR/First Aid training and completes a criminal background check for each worker. Parents train and supervise their RCPs. They handle any problems concerning their workers. Parents let the SSR department know when the worker is being discharged.</p>
